**Subject:** Discussion yesterday

Paula,

Thank you for the time you and other staff members spent with us yesterday discussing Sunnyside's responses to your comments on Sunnyside's work plans and QAPPs for Multi-media and Subsurface investigations.

I was very pleased to hear that, at least for the comments of those EPA personnel who participated, the edits in the documents were satisfactory.

I understand that, in the absence of an AOC, you cannot provide a formal approval, but hearing from the EPA participants that there were no further comments was reassuring to me.

Again, I appreciate your shuffling your schedule to have this discussion prior to our scheduled sampling event next week. As I stated yesterday, it is Sunnyside's intent to conduct its investigations in a rigorous manner to ensure the collection of valid and usable data.

Pat
